FOR DISTRICT IT

Network & Privacy Quick Sheet

FREE CLASSROOM RESOURCE

Kloud Pixel Education is served from one dedicated domain. The simulations run entirely in the browser and make no requests to any other host.

Domain	*.kloudpixelstudios.com (edu.kloudpixelstudios.com)
Ports	443, HTTPS only
WebSockets	None required. Standard secure HTTPS only.
Third parties	None. No CDNs, analytics, fonts or ad services.
Installation	None. Runs in modern browsers using WebGL.
Accounts	None required for basic play.
Personal data	No names, emails, student IDs or other PII are collected. Progress stays in the student's browser.

This is a technical description, not legal advice. It is designed to support FERPA and COPPA review; please have district counsel decide what applies to your use.
